

# Welcome to 2024 RESOLVED -2010, LLC

Educator | Consultant | Facilitator

Hello educators & Community Leaders

We are thankful for the opportunity to re-assess the effectiveness of our homes, churches, and communities for the long-term success of students, who will become - next generation adults. Family remains the foundation of society, but as communities have become more mobile and diverse, what was once common foundational home practices - have now shifted to the local churches.

Many families are in turmoil for the lack of effective guidance and trustworthiness.

- **Homes** – Nuclear & extended family engagement
- **Churches** – Collaborated spiritual & moral guidance
- **Schools** – Parents & students' accountability for career planning and academic success

Our **D.E.B.I.** concept is very practical, yet highly effective! (*diversity, equity, belonging, inclusion*)
