Greetings Community Leaders & Faith Based Organizations

Our Message is Clear –

Strong families are not magical; they require making tough decisions. Strong families must be committed, honest, respectful, fair, and give unconditional love regardless of race, gender, or creed. When life seem unbearable, the family should be a safe haven. The truth is, we can't go it alone. The "village" is our own homes, too, not just the cities, even countries, where we live.

Your community understands the urgency for academic literacy, healthy family relationships and how these relationships impact our society and next generations. We have partnered with a Family Centered None Profit Organization to promote "Family- Literacy". To be success in any aspect of life, *Children must be able to read well and comprehend information for family survival, state testing, college entrance exams, and careers.* I am 23 years+ high school veteran educator of the Columbus and Oktibbeha – Starkville, Municipal School District, as well as a fourteen-year owner and operator of a professional early childhood program: Knee Cole's Preschool and Kindergarten, also was located in Columbus.

In your support to education, we are soliciting your sponsorship for our upcoming event in down town Columbus, MS at The Columbus Art's Council facility, 501 Main Street. Authors and Artists from far and near will be coming to show case their work in our Friendly City.
